

FREE Professional Learning Opportunity for All Teachers

Sports Ability Workshop

A NATIONAL INCLUSIVE SPORTS PROGRAM FOR ALL ABILITIES

information

Sports Ability adopts the social / environmental approach to inclusion. This approach concentrates on the way in which teachers, coaches and sports leaders can adjust, adapt and modify the way in which an activity is delivered rather than focus on individual disabilities.

Aims of the workshop:

- To provide teachers with more ways of including young people with disabilities in physical activity
- To create a medium for the integration of young people with and without disabilities
- To provide an opportunity for teachers to play the games and identify how the program could work in their school/classroom
- To give students the opportunity to learn the games in order to compete in **Sports Ability Competition in Darwin 20 September**
